SKILLS

I am a highly motivated and project-oriented problem solver. With over **fifteen years of professional experience** I bring with me a set of soft skills that cannot be overstated

- **React**
- **Ruby on Rails**
- **SQL Databases**
- **Javascript**
- **CSS**
- **HTML**
- **OOP**
- **Functional Programming**
- **Unit Testing (Jest, Rspec)**
- **API Implementation and Creation**
- **Version Control (Git)**
- **GitHub**
- **Firebase/Firestore**

EXPERIENCE

Opine School, Seattle - *Software Engineer Intern*

NOVEMBER 2022-FEBRUARY 2023

- Worked **independently** and **with teams** to complete tasks and **close tickets**
- Took instruction and guidance from senior dev when necessary
- Worked across the entire codebase to **fix bugs** within pre-existing components.
- **Simplified UI/UX** to make it more streamlined and intuitive.
- Collaborated with entire dev team to **test** out new features and products

United States Postal Service, Portland, OR - *City Letter Carrier*

SEPTEMBER 2016-AUGUST 2021

- Delivered mail and packages to thousands of postal customers.
- Handled sensitive customer information, and maintained important route information
- Prioritized safety while meeting and exceeding management's expectations of efficient delivery.

Public Bikes, San Francisco, CA - *Lead Mechanic*

APRIL 2013-JUNE 2016

- Handled the intake and scheduling of all customer build and repair tickets.
- I focused on providing exceptional customer satisfaction while fostering a safe and open environment for staff to feel empowered as individuals, thus increasing overall team productivity.

EDUCATION

Epicodus - *Certificate in Mobile and Web Development*

OCTOBER 2021-NOVEMBER 2022

Epicodus focuses on teaching the best coding practices possible, shaping individuals into programmers who are ready to meet industry standards and conventions. We also learned valuable self-teaching skills, as well as how to be effective collaborators.
